Integration Partner Program

See for yourself at ipp.boschsecurity.com

BOSCH

Invented for life

If you create solutions and need compatible products, this is for you:

Working with industry partners allows us to deliver you new integration possibilities. Through our Integration Partner Program, our products and features are compatible with even more video management software and storage providers.

Easily identify the compatible software or product that is right for you by browsing our Solution Advisor and checking the integration status of our partners.

If you want to integrate unique features and functionalities, check this out:

Become our partner to leverage powerful development tools, leading technology, co-marketing and dedicated support – online and personal. Read on to learn about the benefits of the program.

**At Bosch, we
provide immediate
access to the
products and
tools you
need.**

**Integration
Partner
Program**

**I want to
integrate
with the best
video products
and technology.**

Integrating the unique products and features from Bosch Security Systems is easy. Whether you are integrating into your own video management software or storage products or as part of an overall security solution – we are here to support you.

Helping you create the best solutions for your customers.

A snapshot of what you can expect:

A comprehensive portfolio for various customer needs

- ▶ Unrivaled picture quality – low light sensitivity, 24/7 picture usability
- ▶ Intelligent video analytics at the edge – people counting, behaviour detection, forensic search and more
- ▶ Recording at the edge and iSCSI based storage
- ▶ Remote access ready – adaptive bandwidth technology, mobile device ready
- ▶ Application-specific cameras including license plate readers and explosion-protected cameras

A range of products across the video value chain

Select the scope of your integration depending on your needs

- ▶ Camera and live video
- ▶ Analytic and intelligence
- ▶ Video recording
- ▶ Video management

Ease of integration

- ▶ One firmware and one SDK
 - This means one implementation to support an entire product range!
 - Benefit from your initial development time and save resources and money when adding new products and features
- ▶ ONVIF conformance
 - Founding member driving the next generations of interoperability
 - Benefit from effortless and future-proof integration
- ▶ Choice of integration methods
 - ONVIF/RTSP for standard features
 - Dedicated drivers to access unique features
- ▶ Bosch SDK
 - Access cutting-edge features from intelligent video analytics to edge recording and Bosch iSCSI

Development tools

- ▶ Predefined integration packages using the SDK of your choice
- ▶ Choose your SDK for feature implementation with the SDK Feature Matrix
- ▶ Find and download compatible firmware versions for your Bosch devices
- ▶ View the compatibility between camera/decoder and encoder/decoder

Grow your business

- ▶ Lead generation
- ▶ Be featured on our web portal and customer Solution Advisor
- ▶ Co-marketing activities including training and exhibition at major events
- ▶ Global reach with a powerful offering to a range of vertical markets

Three partner levels to address your specific needs.

Each level offers powerful information and support. Choose the one that is right for you:
