Invented for life

# Integrated Security, Safety and Building Integration System

PSIM+

## Bosch Security Systems and Advancis

- ▶ Integration of Bosch Access Control, Fire Alarm, Intrusion Alarm and Video Systems
- ▶ Unified visualization (one single user interface)
- ▶ Retroactive control of all connected systems
- ▶ User is efficiently supported by dynamic event workflows
- ▶ Comprehensive reporting and evaluation functions

advancis

The vendor-neutral Physical Security Information Management Platform WinGuard integrates numerous Bosch security systems. This enables unified visualization and control of the complete system range, from access control over fire and intrusion detection until CCTV. Automatic actions automatically executed by WinGuard as well as dynamic workflows support the user in case of an event. All events and entries are logged and available for overall evaluation.

## Compatibility

Advancis	Bosch Security Systems
<b>WinGuard</b>	<p><b>Access Control Systems</b> Bosch AMC</p> <p><b>Alarm Systems</b> UGM 2005 / 2010 / 2020 FPA 5000 NZ 300 UEZ / BZ500 MAP 5000</p> <p><b>Video Systems</b> Bosch Video SDK (Dinion, DiBos, Divar, FlexiDome, Videojet, VIP, VRM, VIDOS, ...) Bosch Video Management Systems (BVMS) LTC Video Matrix</p> <p><b>Public Address (PA)</b> Praesideo</p>

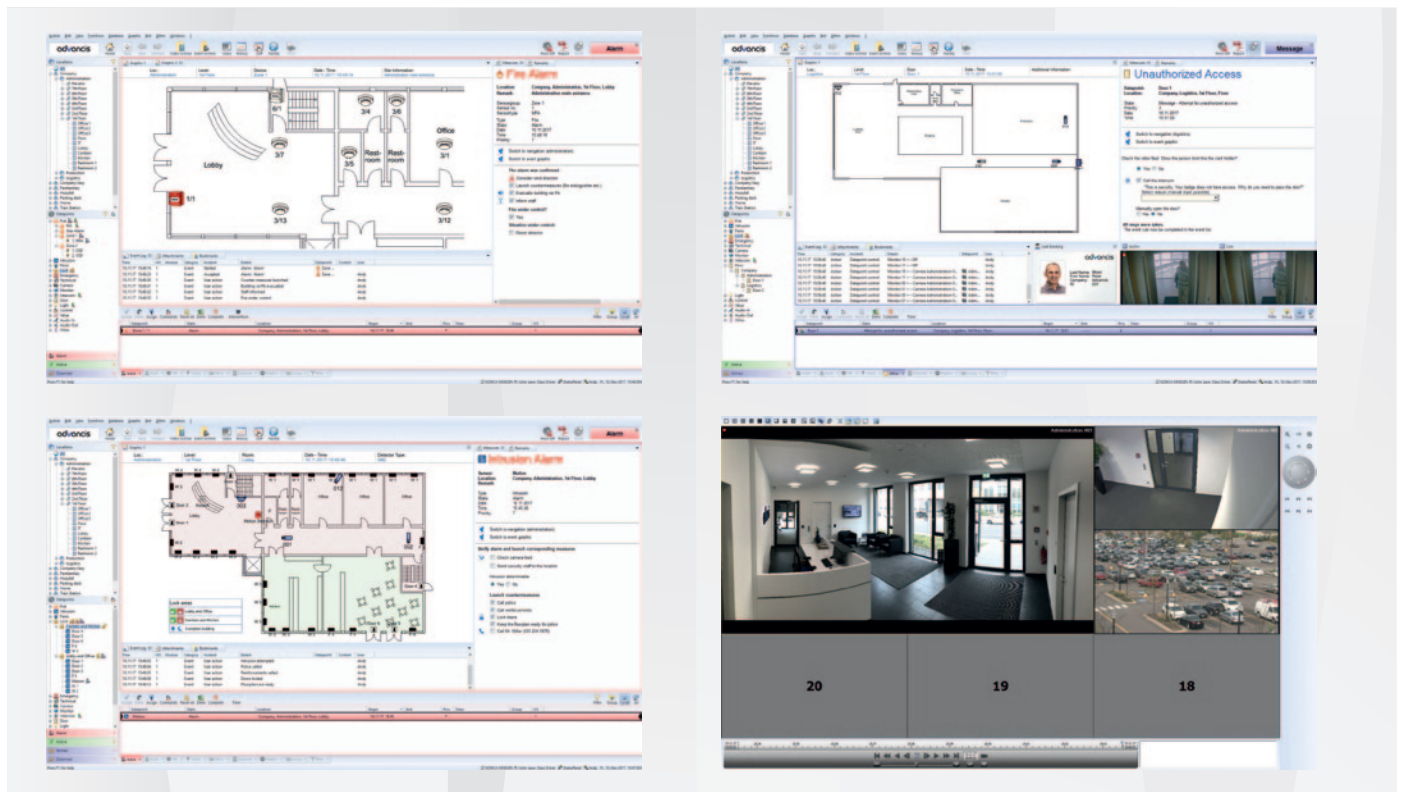

# Physical Security Information Management System

WinGuard offers the highest security level for any application, e.g. industry, critical infrastructures, hospitals, finance & administration, data centers, transport & traffic, penal & forensic, and many more

## Key features

- ▶ Display and processing of events registered by all connected Bosch security systems.
- ▶ Manual control of device functions, e.g. open doors, control locking areas or disable fire detectors.
- ▶ Automatic control of device functions and surveillance of target status, e.g. for locking areas or fire detector groups.
- ▶ Display of live video, camera control, access to video archive, setting of bookmarks and exporting of sequences using the integrated Video Manager.

**The Bosch division Security Systems** is a leading global supplier of security, safety, and communications products, solutions and services. Protecting lives, buildings and assets is our aim. The product portfolio includes video surveillance, intrusion detection, fire detection and voice evacuation systems as well as access control and management systems. Professional audio and conference systems for communication of voice, sound and music complete the range. Bosch Security Systems develops and manufactures in its own plants across the world. Visit [www.ipp.boschsecurity.com](http://www.ipp.boschsecurity.com) for details on the Bosch Integration Partner Program

More than 1,200 realized installations in different application sectors, worldwide area representations as well as numerous certified integration partners make Advancis one of the international market leaders in vendor-neutral security and building management.

Founded in 1994 as a regional software manufacturer, the company pioneered in cross-domain security management. From the very beginning, vendor-neutrality has been the decisive advantage of the WinGuard system, as the total security, building, communication and IT infrastructure can be integrated.

The user in the control center is enabled to detect all situations in the surveilled building or perimeter in an optimal way, being efficiently supported in event processing by WinGuard.
